

# COVERBIND<sup>®</sup>

---

A PROFESSIONAL IMPRESSION<sup>®</sup>

Document Binding Products to Enhance your Professional Image.

Judge a book by its cover

## PERFECT INNOVATION

With a wide range of spine sizes  
Coverbind has a binding solution for  
every document that needs to look  
its best. Binding from 1-500 sheets.

*This 2 inch thick book (500 sheets of paper) is being suspended by a single page just minutes after it was bound.*

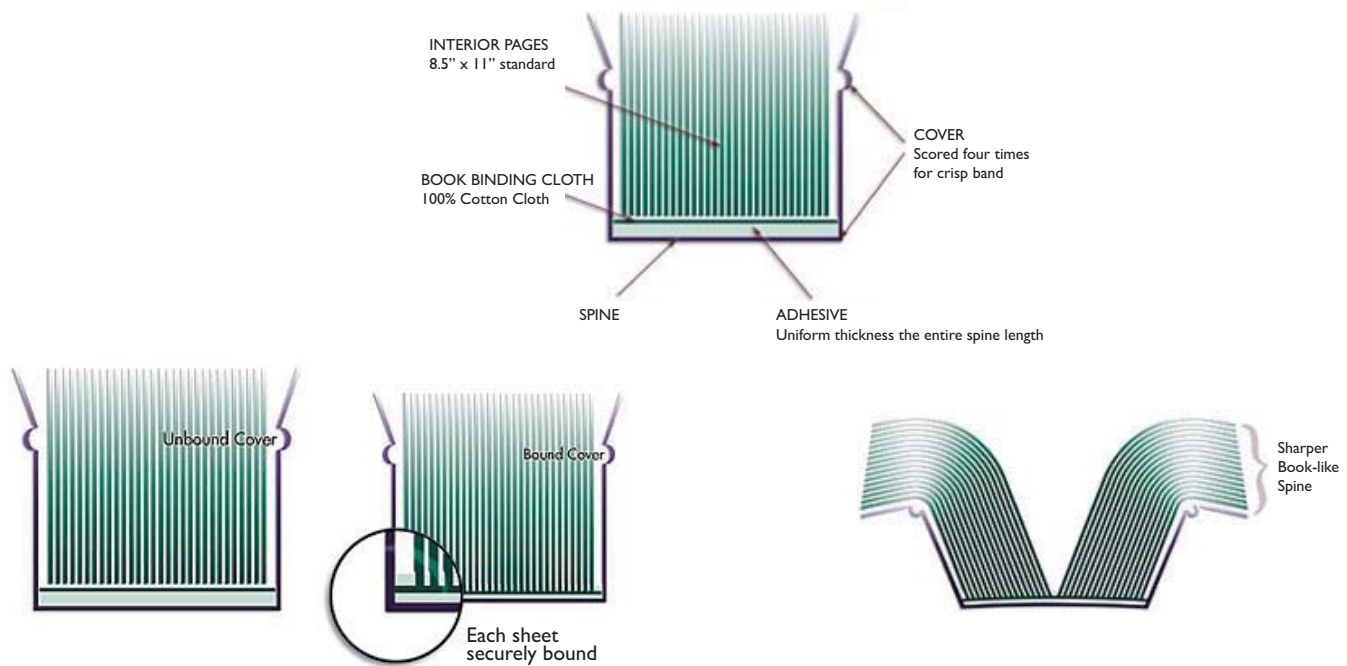

Fairly or unfairly, first impressions influence our decisions. We tend to place greater value on things that look better because they look “professional.”

Coverbind’s patented covers and machines produce bound documents with the book-like appearance of commercial perfect binding, in-house and on demand, simply and quickly.

# You never get a second chance to make a first impression.

The Coverbind concept has been developed with this vital first impression in mind. A variety of covers are available specifically for documents produced in-house. The advantages Coverbind has to offer are numerous. Providing A Professional Impression® is a key advantage.

**BINDING PROCESS:** During the binding process, the pages and the book binding cloth flow into the adhesive.

The vertical edges of the adhesive attach to the cover ensuring all papers melt into the adhesive.

After cooling, the cloth, adhesive, and cover stock fuse together.

The book binding cloth in the adhesive improves the spine squareness, durability, and hinge effect on the spine.

**SCORING PROCESS:** Our covers are the first pre-folded thermal covers in the world.

The covers are folded back on themselves during the production process. This allows the bound document to hinge open the first time it is used.

## MANUAL DESKTOP

**THE COVERBIND® 5000** is an manually operated, powerhouse of possibility. The Coverbind® 5000 is an excellent choice for lower volumes, odd sizes, larger page capacity and as a companion to our automatic binders.

## MANUAL DESKTOP

**THE COVERBIND® 101 DFS** is a powerful, automatic, and flexible binding machine for moderate use. This remarkable innovation eliminates human error while creating a perfect bind every time.

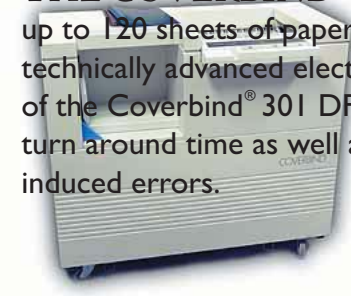

## AUTOMATIC OFF-LINE

**THE COVERBIND® 201 DFS** is truly top of the line. With a binding capacity of 1800 documents per hour, this machine is an invaluable tool for companies everywhere. This console unit is about the size of a mid volume copier and can be found in offices, in-house print facilities and commercial printers.

## AUTOMATIC IN-LINE

**THE COVERBIND® 301 DFS** can perfect-bind documents up to 120 sheets of paper at the rated speed of today's most technically advanced electronic printers. The automated features of the Coverbind® 301 DFS will reduce manual labor and job turn around time as well as minimize waste and operator induced errors.

## NEW ways to customize your cover!

**PRINT ON DEMAND:** Develop your artwork, insert the covers in your compatible digital printer, and instantly produce a custom cover!

The adhesive is ready to insert when you bind your documents. Your custom covers are ready when you need them.

**AMBASSADOR ON DEMAND:** These true case bound hard covers are debossed on the front to accept custom labels. Print the self adhesive label that is supplied and adhere to the debossed area. Instantly, you have a custom hard cover.

Each cover can be individually customized to enhance those special reports and manuals.

**CLASSIC®** covers, have a clear, non glare front and come in a variety of rich colors. These covers quietly project your professionalism and good taste.

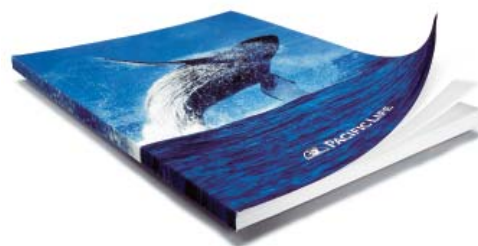

**PORTFOLIO** covers project a more traditional image. These wrap-around, high quality paper covers have been prepared with a window to promote a custom appearance. The cover is a durable and textured stock with embossed vertical ridges.

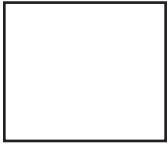

**AMBASSADOR** covers are hard bound books for those special reports and manuals. This true case bound hard cover is wrapped in a beautiful leather-like material. These covers are available in five rich colors and can be customized with foil stamping, or ordered with print-on-demand labels.

**CUSTOM** covers are for those special applications. Create your own unique Custom Cover. Choose from an extensive selection of cover stocks in numerous colors and finishes. Custom treatments include printing, foil stamping, die cutting, 4-color printing, screen printing and embossing.

The Personal Binder is a compact desktop unit designed for individual users with modest document volumes.

The Personal Binder binds documents up to 120 sheets. As many as three small documents can be bound simultaneously. Small, but productive, the economical Personal Binder will out produce tabletop punch and bind systems costing hundreds more.

## How To Bind:

Measure the set of paper with the cover size selector.

Put the set of paper in a cover with the correct spine width.

Place one or several documents in the Personal Binder.

Press the red button to start binding. When the button turns off, move the documents to the cooling plate for a few minutes.

Congratulations - you have produced a professionally bound document in an instant!
